

Tomorrow's Power Today.

Yamaha generators are full of state-of-the-art technology that not only guarantees high-level performance, but also makes them outstanding in operation, economy and durability.

Our range of generators provides customers with the most compact, reliable and efficient portable power sources for use on camp sites, boats, small outdoor vending stands, to power small home electric equipment or to supply back-up power in case of power failure.

These and many other aspects of Yamaha engineering provide the unmatched durability expected by users throughout the world for carefree power generation.

- High-output, 79cc engine
- Retro-modern style and light weight
- Up to 10.5 hours continuous running at 1/4 rated load
- Large capacity muffler for quieter running
- Economy control for saving fuel
- Easy-to-use control panel
- Large handle for carrying by one or two people
- 4.2 litre fuel tank
- Easily detachable panel for servicing
- Complies with gas emission regulations
- TwinTech™ capability

Tomorrow's Power Today.

Imejte energijo na dosegu roke, pa naj si bo za zagon kuhalnika ali za električno orodje. EF2000iS je eden izmed najlažjih generatorjev okoli, saj tehta samo 21 kilogramov, kar pomeni, da ga lahko prenašate z eno samo roko.

Kljud svoji moči, visoko zmogljiv dušilec zagotavlja, da generator deluje z nizko stopnjo hrupa s samo 51,5 dB(A).^{*} Kompaktna kontrolna plošča z vsemi podatki na eni strani omogoča enostavno uporabo in se ujema z novo, privlačno in retro obliko. 4.2-litrski rezervoar za gorivo omogoča 10.5 ur neprekinjenega delovanja pri 1/4 nominalne obremenitve. Torej, če se odpravljate kampirat ali na gradbišče, ta frekvenčni menjalnik brez ščetk bo kos vsaki nalogi.

* pri 1/4 nominalne obremenitve s 7 metrov.

**Inverter system with Pulse Width Modulation**

This industry-leading system produces high-quality, clean electricity. Its pure sine wave is as clean or cleaner than commercial power, making it suitable for products with built in microcomputers.

**Smart Throttle™ load-sensing throttle control**

This intelligent system automatically adjusts engine speed to precisely match load - resulting in greater fuel efficiency and noise reduction.

**Oil warning system**

To prevent engine damage and costly repairs, and enhance long-term durability, the generator automatically shuts off when oil begins to run low. It cannot be restarted until oil is added.

Generator

Vrsta generatorja	INVERTER - tiho delovanje
Frekvenca	50 hz
Nazivni AC izhod	1600 VA
Največji AC izhod	2000 VA
Napetost AC	230 V
DC izhod	12/8V/A
Faktor moči	1
Zagon	Direktni
Delovne ure brez ponovnega polnjenja	4.2 - 10.5 (*Vključena funkcija ekonomične porabe goriva)
Nazivni tok	6.9 A

Agregat

Prostornina	79ccm
Največji izhod napajanja	2.3 kW / 4500 obr/min
Sistem zagona	Ročno

Dimenzijs

Teža (z vsemi polnimi rezervoarji) (kg)	21kg
Nivo hrupa (LWA)	88dB (A)
Nivo hrupa 7 m	51.5 dB (A) (*Vključena funkcija ekonomične porabe goriva)
Skupna dolžina	490 mm
Skupna višina	445 mm
Prostornina rezervoarja za olje	0.4L
Prostornina rezervoarja za gorivo	4.2L
Skupna širina	280 mm

EF2000iS

Vsi prikazani modeli niso na voljo v vsaki državi. Specifikacije in izgled Yamahinih proizvodov se lahko občasno spremenijo brez predhodnega obvestila. Prikazane slike so namenjene samo za ilustracijo. Garancija za generator je odvisna od specifičnih pogojev. Za dodatne podrobnosti se obrnite na svojega Yamahinega trgovca.
